TrafFix Grabber-Cone

With New Built-in Handle Design

If you look closer, you'll see what truly differentiates The Grabber-Cone from the competition; its versatility, strength and ease of use.

And that's where The Grabber-Cone really stands out.

Every aspect has been carefully thought out: its unique handle design, its durable low density polyethylene material, the smooth integration of available components, and the multiple applications you can create.

And we've taken into consideration the long-term effects The Grabber-Cone will have on the environment and made it 100% recyclable.

This innovative and advanced handle design enables you to easily move, set, drag or lift the weighted cones

Made of flexible low density polyethylene. The Grabber-Cone is reboundable and reshapeable

**Grabber-Cone available in
28" and 42" Heights**

Reinforced Shoulder Design

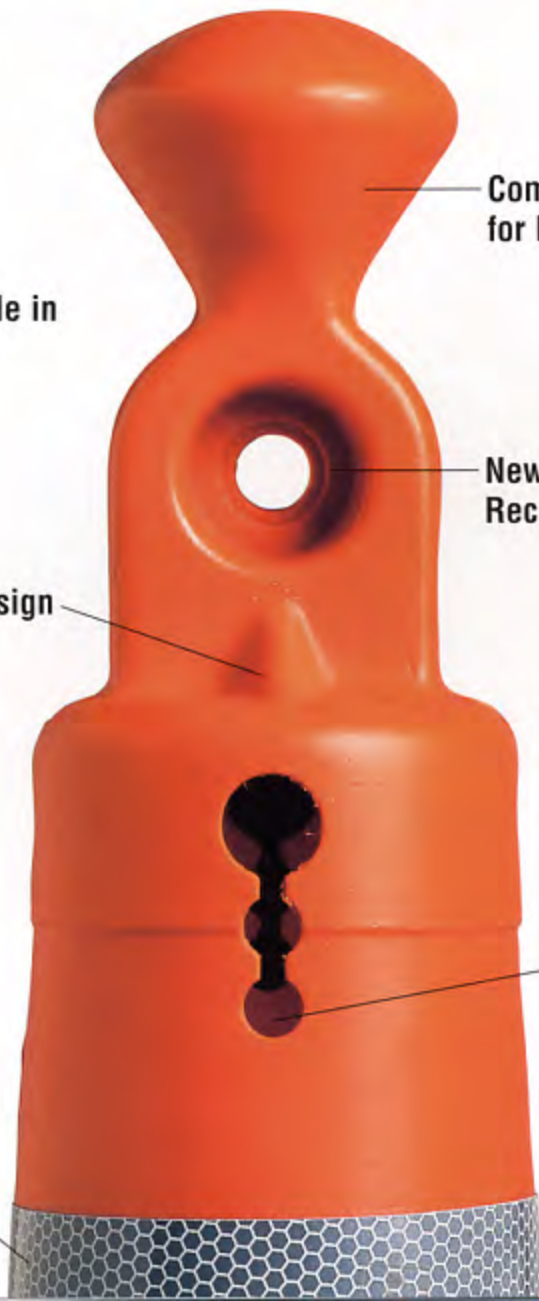

**Comfortable Hand Support
for Lifting**

**New Light Mounting Hole with
Recessed Bolt Protector**

**Tested and certified to meet
the crashworthy requirements
of NCHRP-350**

**The recessed area on
The Grabber-Cone
protects the reflective
collars and minimizes
rips and scratches**

**Optional Keyhole Slot for
Easy Mounting of Signs and
Plastic Barricade Panels
(42" Grabber-Cone Only)**

TrafFix Grabber-Cones

Grabber-Cones come in 28" and 42" heights and are ballasted by 10, 16 or 30 lb. bases. Simply drop the recycled rubber base over the cone stem and you're ready to go to work.

TrafFix 42" Grabber-Cone 42000 Series

42" Grabber-Cone with caution tape wrapped around handle

42" Grabber-Cone with (2) 4" orange and (2) 4" white bands of 3M™ diamond grade reflective sheeting

42" Grabber-Cone with (2) 6" orange and (2) 6" white bands of 3M™ diamond grade reflective sheeting

42" Grabber-Cone with (4) 4" bands of white reflective sheeting

42" Grabber-Cone with (1) 6" and (1) 4" band of white reflective sheeting and recycled rubber base

28" Grabber-Cones with caution tape provide an ideal way to protect bazardous off-road areas

28" Grabber-Cones and Traffix vests provide high visibility to help protect workers

Traffix 28" Grabber-Cone 28000 Series

The convenient and easy to use 28" Grabber-Cones provide maximum work zone safety. They stack for storage and transportation and can be used with 10 or 16 lb. recycled rubber bases.

28" Grabber-Cone with Grabber-Cones with (1) 6" and (1) 4" band of white reflective sheeting and recycled rubber base

Grabber-Cone Features

- ♦ The Grabber-Cone measures 28" or 42" in height
- ♦ Made of flexible low density polyethylene
- ♦ Bright orange color molded throughout
- ♦ UV inhibitors to minimize fading
- ♦ Grabber handle patented design allows for easy movement and prevents cones from sticking
- ♦ Stackable for storage and transport
- ♦ Available with various size and types of reflective sheeting
- ♦ Available with keyhole slots and plastic barricade panel (42" Grabber-Cone only)
- ♦ Bases will not crush when run over
- ♦ Meets Federal M.U.T.C.D. standards

Channelize traffic with 42" Grabber-Cone and optional plastic barricade panels

- ♦ Parades/crowd control
- ♦ Narrow work areas
- ♦ Water/flood control
- ♦ Lane closures
- ♦ Tree trimming
- ♦ Channelize or delineate traffic
- ♦ Barricade construction work zones
- ♦ Vehicular or pedestrian traffic control
- ♦ Parking lot traffic control, striping or resurfacing

8"x36" Grabber Vertical Panel Barricade with light and 30 lb. recycled rubber base

42" Grabber-Cone with stop sign and warning light

42" Grabber-Cone with directional arrow sign

The Grabber truck kit is a handy assortment of linkable plastic barricade panels and 42" Grabber-Cones. Toggled panels come in 2, 3, 4 and 6 foot lengths

Grabber-Cones Feature

100% Recycled Rubber Bases

42" Grabber-Cone and plastic rails can totally enclose holes and construction work areas

easy grip handles

10 or 16 lb. base

30 lb. base

Rubber Bases

The composite construction offers strength and durability. Both bases are made from 100% recycled rubber. (Weight 10, 16 or 30 lbs.)

Cones stacked with rubber bases

Alternate stacking method

Flange Design

The extra large flanged bottom supports the cones while in use or when stacked with the rubber base.

Stackable

With its reinforced handle design, The Grabber-Cone can support the weight of stacked cones and bases without permanent distortion.

Its low density polyethylene material and handle design prevents the cones from sticking together when stacked. The Grabber-Cone can be stacked with or without bases.
